

INTELLIGENT TRANSPORTATION SYSTEMS MAINTENANCE PLAN

VOLUME TWO: *TECHNICAL APPENDICES*

Prepared by

Chris Strong, Research Associate
Robb Larson, Adjunct Assistant Professor of Mechanical Engineering
Alan McAllister, Research Assistant

of the

Western Transportation Institute
Department of Civil Engineering
College of Engineering
Montana State University - Bozeman

for the

State of Oregon
Department of Transportation
Technical Services
Traffic Management Section
Intelligent Transportation Systems Unit

December 1999

DISCLAIMER

The opinions, findings and conclusions expressed in this publication are those of the authors and not necessarily those of the Oregon Department of Transportation. Alternative accessible formats of this document will be provided upon request.

Persons with disabilities who need an alternative accessible format of this information, or who require some other reasonable accommodation to participate, should contact the Oregon Department of Transportation, at: Galen McGill, Manager, Intelligent Transportation Systems Unit, Division of Technical Services, Traffic Management Section, 355 Capitol Street NE, Fifth Floor, Salem, OR 97301-3871; telephone number (503) 986-4486.

ACKNOWLEDGMENTS

Grateful appreciation is extended to the following agencies for their support, guidance and advice that facilitated the successful completion of this report. Specifically appreciated are the ITS Working Group; and the various programs, divisions and districts/regions of the Oregon Department of Transportation. Thanks also go to all the individuals within ODOT who took time to complete surveys and assist in data collection efforts without which this effort would fail. Thanks go to those who assisted in providing research and background material for this report, including but not limited to the staff of the Montana State University library, staff of several state Departments of Transportation, and representatives of many product vendors.

GLOSSARY OF ABBREVIATIONS

ADOT	Arizona Department of Transportation
ATMS	Advanced Traffic Management System
ATR	Automatic Traffic Recorder
AVC	Automatic Vehicle Classification
AVI	Automatic Vehicle Identification
AVL	Automatic Vehicle Location
CAD	Computer-Aided Dispatch
Caltrans	California Department of Transportation
CCTV	Closed-Circuit Television
CDPD	Cellular Digital Packet Data
CMS	Changeable Message Sign
COATS	California-Oregon Advanced Transportation System
COMET	Corridor Management Team
CPU	Central Processing Unit
CSEPP	Chemical Stockpile Emergency Preparedness Program
CVO	Commercial Vehicle Operations
DAS	Department of Administrative Services
DB	Design-Build
DBM	Design-Build-Maintain
DBW	Design-Build-Warrant
DOT	Department of Transportation
DSAS	Downhill Speed Advisory System
FMS	Freeway Management System
FTE	Full Time Employee
GPS	Global Positioning System
HAR	Highway Advisory Radio
HazMat	Hazardous Materials
HTCRS	Highway Travel Conditions Reporting System
ICTM	Integrated Corridor Traffic Management
ILD	Inductive Loop Detection
IS	Information Services
ITS	Intelligent Transportation Systems
LED	Light-Emitting Diode
LOS	Level of Service

MCTD	Motor Carrier Transportation Division
MLT	Maintenance Leadership Team
Mn/DOT	Minnesota Department of Transportation
O&M	Operations and Maintenance
ODOT	Oregon Department of Transportation
ORS	Oregon Revised Statutes
OSP	Oregon State Patrol
PAD	Passive Acoustic Detection
PDA	Personal Digital Assistant
PECOS	Performance Controlled System
RPU	Remote Processing Unit
RWIS	Road and Weather Information System
SC&DI	Surveillance, Control & Driver Information
SCATS	Sydney Coordinated Adaptive Traffic System
SSI	Surface Systems Incorporated
STIP	Statewide Transportation Improvement Program
T&M	Time-and-Materials
TDS	Transportation Data Section
TMC	Transportation Management Center (for Caltrans District 7)
TMOC	Traffic Management Operations Center (same as Region 1 TOC)
TOC	Transportation Operation Center
TOS	Traffic Operation System (for Caltrans District 7)
TSMC	Traffic Systems Management Center (for WSDOT)
TSSU	Traffic Signals Services Unit
TWI	Texas Weather Instruments
TxDOT	Texas Department of Transportation
VMS	Variable Message Sign
VSLs	Variable Speed Limit Systems
WIM	Weigh-in-Motion
WSDOT	Washington State Department of Transportation
WTI-MSU	Western Transportation Institute at Montana State University – Bozeman

TABLE OF CONTENTS

LIST OF TABLES	X
LIST OF FIGURES	XII
APPENDIX A STAKEHOLDER MEETING ATTENDANCE.....	1
APPENDIX B TRANSPORTATION AGENCY MAINTENANCE PLANS	3
B.1 Metropolitan Area Plans	3
B.1.1 Caltrans District 7.....	3
B.1.2 Washington State Department of Transportation – Seattle area	5
B.1.3 I-494 Corridor – Minneapolis area.....	6
B.1.4 National ITS Architecture	8
B.2 Statewide Plans	8
B.2.1 Arizona Department of Transportation.....	9
B.2.2 Texas DOT.....	10
APPENDIX C ALTERNATIVE MAINTENANCE MODELS.....	13
C.1 District/Regional Maintenance	13
C.2 Coordinated ITS Maintenance	15
C.3 Two-Tier.....	18
C.4 Contractor-Based.....	21
C.5 Comparison of Alternatives.....	24
C.6 Stakeholder Meetings	28
APPENDIX D PRIORITIZATION GUIDELINES IN OTHER PLANS	31
APPENDIX E RESULTS OF PRIORITIZATION SURVEYS	33
E.1 Executive Steering Committee	33
E.2 TOC Managers	33
E.3 District Managers	35
APPENDIX F REPAIR PRIORITIZATION SURVEY FORMS.....	37
APPENDIX G INFRASTRUCTURE DESCRIPTION	43
G.1 Data Collection.....	43
G.1.1 Automatic Traffic Recorders.....	43
G.1.2 Speed Zone Monitoring Stations.....	44

G.1.3	Closed-Circuit Television Surveillance	44
G.1.4	Video Detectors.....	47
G.1.5	Road and Weather Information System.....	48
G.1.6	Travel Time Estimation.....	50
G.1.7	Automatic Vehicle Location.....	52
G.2	Traffic Management.....	54
G.2.1	Traffic Signals.....	54
G.2.2	Ramp Metering.....	55
G.2.3	Traffic Signal Preemption for Emergency Vehicles.....	55
G.2.4	Preferential Traffic Signal Treatment for Transit Vehicles	56
G.2.5	Advanced Traffic Management System.....	57
G.3	Incident Detection.....	58
G.3.1	Callboxes.....	58
G.3.2	Cellular Call-in.....	59
G.3.3	Automatic Incident Detection Systems.....	59
G.4	Incident Management and Response.....	61
G.4.1	Computer-Aided Dispatch.....	61
G.4.2	Incident Response Vehicles	62
G.4.3	Pre-planned Detour Routes	63
G.4.4	Hazardous Material Response.....	64
G.5	Pre-trip Traveler Information.....	65
G.5.1	Alphanumeric Paging.....	65
G.5.2	Highway Travel Conditions Reporting System.....	65
G.5.3	800-number Information.....	67
G.5.4	Internet Access	67
G.5.5	Kiosks.....	67
G.6	En-route Traveler Information.....	69
G.6.1	Changeable Message Signs	69
G.6.2	Variable Message Signs	70
G.6.3	Highway Advisory Radio.....	73
G.6.4	Weather and Visibility Warning Systems	73
G.6.5	Variable Speed Limit Systems	75
G.6.6	Queue Detection System.....	76
G.7	Commercial Vehicle Operations	77
G.7.1	Weigh-in-Motion Systems	78
G.7.2	Downhill Speed Advisory System.....	80
G.8	Communications Systems	81

G.8.1	Fiber Optic Networks.....	81
G.8.2	Radio Communications.....	82
G.9	Maintenance Coordination.....	83
APPENDIX H	SKILL LEVEL ASSUMPTIONS	85
H.1	Diagnostic Effectiveness.....	85
H.2	Repair Effectiveness.....	85
H.3	Diagnostic and Repair Efficiency	87
APPENDIX I	EVALUATION OF TECHNOLOGICAL CHANGE.....	89
APPENDIX J	TRAVEL TIME ASSUMPTIONS.....	91
J.1	Between Field Components Within Region.....	91
J.2	From Centralized Support to Field Devices	91
J.3	From TOC to Same TOC.....	92
J.4	From Region 2 TOC to Other TOCs	92
APPENDIX K	DEVICE-BY-DEVICE RESOURCE NEEDS	93
K.1	Generic Components	93
K.1.1	Generic Workstation.....	93
K.1.2	Generic Server.....	93
K.1.3	Generic Field Computer.....	94
K.1.4	Generic Software.....	95
K.1.5	Generic Environmental Sensors.....	95
K.1.6	Generic Field Communications.....	96
K.1.7	Generic Flashing Beacon / Sign.....	96
K.1.8	Generic Local Cable and Wiring.....	97
K.1.9	Generic Video Imaging Field Unit.....	98
K.1.10	Generic Matrix Display Unit.....	98
K.1.11	Generic Radio Communications Maintenance.....	98
K.2	Device-by-Device Resource Estimates.....	99
K.2.1	Data Collection.....	100
K.2.1.1	<i>Automatic Traffic Recorders.....</i>	<i>100</i>
K.2.1.2	<i>Speed Zone Monitoring Stations.....</i>	<i>101</i>
K.2.1.3	<i>Closed-Circuit Television Surveillance</i>	<i>102</i>
K.2.1.4	<i>Video Detectors.....</i>	<i>109</i>
K.2.1.5	<i>Road and Weather Information System</i>	<i>112</i>
K.2.1.6	<i>Travel Time Estimation</i>	<i>120</i>
K.2.1.7	<i>Automatic Vehicle Location.....</i>	<i>126</i>
K.2.2	Traffic Management.....	132

K.2.2.1	<i>Ramp Metering</i>	132
K.2.2.2	<i>Traffic Signal Preemption for Emergency Vehicles</i>	133
K.2.2.3	<i>Preferential Signal Treatment for Transit Vehicles</i>	134
K.2.2.4	<i>Advanced Traffic Management System</i>	135
K.2.3	Incident Detection.....	141
K.2.3.1	<i>Callboxes</i>	141
K.2.3.2	<i>Cellular Call-In</i>	143
K.2.3.3	<i>Regional Incident Detection System</i>	144
K.2.3.4	<i>Intersection-Based Incident Detection System</i>	147
K.2.4	Incident Management and Response.....	150
K.2.4.1	<i>Computer-Aided Dispatch</i>	150
K.2.4.2	<i>Incident Response Vehicles</i>	153
K.2.4.3	<i>Pre-planned Detour Routes</i>	157
K.2.4.4	<i>Hazardous Material Response</i>	159
K.2.5	Pre-Trip Traveler Information.....	162
K.2.5.1	<i>Alphanumeric Paging</i>	162
K.2.5.2	<i>Highway Travel Conditions Reporting System</i>	164
K.2.5.3	<i>800-number Information</i>	168
K.2.5.4	<i>Internet Access</i>	173
K.2.5.5	<i>Kiosks</i>	176
K.2.6	En-Route Traveler Information.....	181
K.2.6.1	<i>Icy Bridge Warning CMS</i>	181
K.2.6.2	<i>Tunnel Lane Closure CMS</i>	184
K.2.6.3	<i>Radio-Controlled Snow Zone CMS</i>	187
K.2.6.4	<i>Telephone-Activated Snow Zone CMS</i>	191
K.2.6.5	<i>Oversize Vehicle Restriction CMS</i>	195
K.2.6.6	<i>Permanent Variable Message Signs</i>	199
K.2.6.7	<i>Portable Variable Message Signs</i>	204
K.2.6.8	<i>Highway Advisory Radio</i>	209
K.2.6.9	<i>Icy Bridge Detectors</i>	214
K.2.6.10	<i>Oversize Load Detector</i>	219
K.2.6.11	<i>Variable Speed Limit Systems</i>	224
K.2.6.12	<i>Queue Detection System</i>	229
K.2.7	Commercial Vehicle Operations	232
K.2.7.1	<i>Weigh-in-Motion Systems</i>	232
K.2.7.2	<i>Downhill Speed Advisory System</i>	237
K.2.8	Communications Systems	243
K.2.8.1	<i>Fiber Optic Networks</i>	243
K.2.8.2	<i>Radio Communications</i>	245
K.2.9	Maintenance Coordination.....	249
K.3	Resource Needs Estimates by Staff Classification	252
K.4	Resource Needs Estimates by Skill Set	256
APPENDIX L	TRAINING ALTERNATIVES	259

L.1 Contractual Training.....	259
L.2 Remedial Training	259
L.3 Development Training.....	260
L.4 Training Through Other Agencies	260
L.5 Internal Training	260
APPENDIX M CONTRACTING ACTIVITIES	263
M.1 Preventative Maintenance	263
M.2 Repair Maintenance	263
M.3 Low-Level Maintenance.....	264
M.4 High-Level Maintenance	264
M.5 Select Devices.....	265
APPENDIX N DETAILED BUDGET	267
N.1 Maintenance Budget by Device	267
N.1.1 Existing Deployment	267
N.1.2 STIP Deployment.....	273
N.1.3 Strategic Plan Deployment.....	280
N.2 Maintenance Budget by Region.....	289
N.2.1 Existing Deployment	289
N.2.2 STIP Deployment.....	291
N.2.3 Strategic Plan Deployment.....	294
APPENDIX O REFERENCES / BIBLIOGRAPHY.....	297
