Cover:

Interstate 99

Blair County

INTRODUCTION

Pennsylvania Highway Statistics is annually updated to summarize a wide variety of highway mileage and travel information in Pennsylvania. Most of the information is derived from the Highway Performance Monitoring System (HPMS) and reflects 2006 travel activity and highway conditions.

The collection and compilation of this information was accomplished with the assistance of the Federal Highway Administration, Pennsylvania Turnpike Commission, Metropolitan Planning Organizations, Rural Planning Organizations, toll authorities and others. Without their support, this report would not be possible.

It is our goal to continuously improve this annual report as a service to anyone interested in Pennsylvania Highway Statistics. Any comments will be greatly appreciated.

For more information, visit us through the PennDOT Homepage at <http://www.dot.state.pa.us>

If you have any questions concerning this report, please contact Gaye Liddick at (717) 787-5983 or email: galiddick@state.pa.us

Travel Activity by Vehicle Type and Functional System is an annual report required by the Federal Highway Administration. This report provides a summary of the traffic mix on various types of highways from local roads, which provide access to individual parcels of land, to limited access highways such as freeways, expressways and Interstates.

LINEAR MILES AND DVMT BY DISTRICT**

FUNCTIONAL CLASSIFICATION

1. Interstate System – The Interstate System consists of all presently designated freeway routes meeting the Interstate geometric and construction standards for future traffic. The Interstate System is the highest classification of arterial roads and streets and provides the highest level of mobility, at the highest speed, for a long uninterrupted distance. (Maintenance Functional Class “A”)

2. Other Arterials – These consist of limited access freeways, multi-lane highways, and other important highways supplementing the Interstate System that connect, as directly as practicable, the Nation’s principal urbanized areas, cities, and industrial centers; serve the national defense; and connect at suitable border points with routes of continental importance. (Maintenance Functional Class “B” and “C”)

3. Collectors – The collectors provide both land access service and traffic circulation within residential neighborhoods, commercial and industrial areas, and downtown city centers. Collectors connect local roads and streets with arterials and provide less mobility than arterials at lower speeds and for a shorter distance. (Maintenance Functional Class “D”)

4. Locals – The local roads and streets provide a high level of access to abutting land but limited mobility. (Maintenance Functional Class “E”)

GLOSSARY

AADT (Annual Average Daily Traffic) – Typical daily traffic on a road segment for all days in the week, over a one year period.

Mean AADT – The weighted average of AADTs for all segments of the road.

DVMT – Daily Vehicle Miles of Travel; a measure of total travel, by all vehicles.

Federal Aid System – Roads eligible for federal-aid-highway funds; determined by functional classification.

Heavy Trucks – Trucks with 5 or more axles.

Lane Miles – Aggregate of miles times number of lanes.

12' Equivalent Lane Miles – Total pavement width is divided by 12 to yield the number of equivalent 12' lanes.

Linear Miles – Length measured along roadway centerline.

Maintenance Functional Class - Maintenance Functional Class is based on the federal functional class shown on page 32.

National Highway System (NHS) – The NHS is comprised of principal arterial and Interstate routes, serving major population centers and intermodal transportation facilities.

Other Agencies – Includes other state and federal agencies such as State Universities, Department of Conservation and Natural Resources, Department of Health, Department of Education, National Parks & US Forest Service.

Rural – The area outside the boundaries of small urban & urbanized areas.

Small Urban – Places having a population of 5,000 or more, not in an urbanized area.

Toll Bridges – Delaware River toll bridges operated by Delaware River Joint Toll Bridge Commission, Delaware River Port Authority & Burlington County Bridge Commission.

Turnpike – Toll roads operated by the PA Turnpike Commission.

Urban – Urban places of 5,000 or more population and urbanized areas as designated by the Bureau of the Census.

CUSTOMER SERVICE INFORMATION**National Highway System Maps:**

State, district and county maps available from
Gaye Liddick, Transportation Planning Division
Telephone: (717) 787-5983 or email: galiddick@state.pa.us

Functional Class Maps:

State, district and county maps available from
Gaye Liddick, Transportation Planning Division
Telephone: (717) 787-5983 or email:
galiddick@state.pa.us

Traffic Volume Maps:

Statewide and selected county maps available from
Jeremy Freeland, Transportation Planning Division
Telephone: (717) 787-2939 or email: jfreeland@state.pa.us

Highway and Truck Traffic Data:

Available from
Jeremy Freeland, Transportation Planning Division
Telephone: (717) 787-2939 or email: jfreeland@state.pa.us
